Topic - Introduction

I decided to follow my group members (Pranav, Shreya, Samriddhi) to search for Project domain & topic

After Searching we come up with AI (Artificial Intelligence) as a domain and two-three topics are shortlisted.

Date - 05 Aug 2023

Topic - selecting domain name & research <sup>unit</sup>  
After selecting domain & 2-3 topics. so, went to meet professor - Dr. Namdeo Kedare Sir. We showed him our domain & 2-3 topics with two IEEE papers on each topic.

Sir select as suggested "Image Forgery detection" Techniques as topic.

And Sir suggested us to do some research first before confirming to take the topic.

Topic - Work distribution.

After the meeting with Sir, we made some basic research about the topic. we felt that with ~~so~~ enough research and knowledge, we can complete this project.

After confirming the topic "Image Forgery and detection technique" we distribute the works to group members.

Pranav - logic & API part

Shreya - Front end web page development. part

Sohail - Back end DBMS part.

Samridhi - Research part.
